

Product Name: Clean Hands
Revision Date: 4-29-20

SAFETY DATA SHEET

SECTION 1 MATERIAL AND MANUFACTURER IDENTIFICATION

PRODUCT

Product Identifier: CLEAN HANDS
Intended Product Use: Convenient hygiene for hands
Manufacturer Identification Code: F6250, F6250C

MANUFACTURER

Chemical Technologies International Inc.
P.O. Box 968
Rancho Cordova, CA 95741 USA
Phone: (916) 638-1315 Fax: (916) 638-0712
24 hours Emergency Assistance Calls (USA): CHEMTREC (800) 424-9300
Please reference name and manufacturers identification number

SECTION 2 HAZARD(S) IDENTIFICATION

GHS CLASSIFICATION

Flammable Liquids Category 3
Eye Irritation Category 2A

Routes of Exposure: Eye contact, skin contact, inhalation, and ingestion.

Inhalation: Inhalation of mist or vapor may cause irritation of the respiratory tract that usually subsides after exposure ceases.

Eye Contact: Direct or prolonged contact may irritate eyes.

Skin Contact: No irritation expected or reported from normal use.

Ingestion: Do not ingest; may cause but limited to nausea, vomit and diarrhea.

Health hazard	2
Flammability hazard	3
Reactivity hazard	0

Signal word:

WARNING

Hazard statement(s):

Flammable liquid and vapor.

May be harmful if swallowed;

H320: Causes eye irritation.

Product Name: Clean Hands

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

COMPONENT	CAS #	CONCENTRATIONS	FUNCTION
1. Ethanol	64-17-5	50 – 70%	Hygiene
2. Isopropanol	67-63-0	1 – 15%	hygiene
3. Glycerin	56-81-6	.5 – 2%	Conditioner
4. Propylene Glycol	57-55-6	.5 – 2%	Conditioner

This SDS contains confidential and propriety information of CTI and is protected by copyright, trade secret and other State and Federal laws. Its receipt or possession does not convey any rights to reproduce its contents, or to manufacture, use or anything it may describe. Reproduction, disclosure, or use without specific written authorization of CTI is strictly forbidden.

SECTION 4 FIRST-AID MEASURES

Inhalation: Remove from further exposure to fresh air. If respiratory irritation, dizziness, or nausea occurs seek immediate medical attention.

Eye Contact: Flush eyes with a directed stream of water for 15 minutes, forcibly holding eyelids apart to ensure complete irrigation of all eye and lid tissue. If irritation persists, seek immediate medical attention.

Ingestion: If swallowed, do not induce vomiting. Seek immediate medical attention.

SECTION 5 FIRE-FIGHTING MEASURES

FLAMMABILITY PROPERTIES

Flashpoint: 30C; Flammable

Flammable Limits: Not Available

Auto ignition Temperature: Not Available

FIREFIGHTING PROCEDURES

General Hazard: During a fire smoke may contain the original material in addition to toxic and or irritating compounds. Avoid heat sparks or open flame.

Firefighting Instructions: Evacuate all unnecessary personnel. Use dry chemical or CO₂. Use water (only to cool) nearby containers and structures exposed to fire. Direct water stream may spread fire. Keep people away from fire, isolate fire area and deny unnecessary entry.

Firefighting Equipment: Firefighters should wear NIOSH/MSHA approved self-contained, positive pressure breathing apparatus and full protective clothing.

Hazardous Combustion Products: None established

Unusual Fire and Explosion Hazards: None established

SECTION 6 ACCIDENTAL RELEASE MEASURES

PROTECTIVE MEASURES

To minimize exposure to all chemicals, including this product, use good industrial hygiene and common sense. Use only in well ventilated area. If necessary, use exhaust ventilation to insure adequate ventilation. Insure that water is readily available and that you are prepared to properly wash out your eyes should the need arise. (See section 4 for more advice). Wear NIOSH/MSHA approved organic respirator when ventilation is not adequate or when the sufficiency of ventilation to maintain

Product Name: Clean Hands

concentrations below exposure limits is in question. Wear chemical safety goggles to protect against splashes or contact with eyes. See OSHA 29 CFR 1910.33

CLEAN-UP PROCEDURES

Small Spills: Wipe up or mop to dispose of spill in DOT approved waste container.

Large Spills: Contain by diking with soil or other non-combustible absorbent material, and dispose into DOT approved waste container. If possible complete clean up on a dry basis. Comply with all applicable governmental regulations on spill reporting, handling and disposal of waste. Contain all spills or leaks to prevent discharge into the environment. Responsibility of all spills or releases reported to the appropriate local, state and federal agencies falls upon the user.

SECTION 7	HANDLING AND STORAGE
------------------	-----------------------------

HANDLING

. Avoid breathing vapors/mist of this product. As with all chemicals, practice good industrial hygiene when handling this product. Always work in a well-ventilated area and avoid inhalation of product vapor or mist. Do not ingest.

The manufacturer and seller warrant that this product conforms to its standard specifications when used according to directions. As the conditions of method of its use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for use of this product. Information contained herein is believed to be true but all statements and suggestions are made without any warranty, expressed or implied, regarding accuracy of the information. The hazards connected with the use of this material and the results to be obtained from the use thereof.

STORAGE

Avoid excessive heat. Avoid storage with oxidizing or reducing agents and/or acids Store the product in a cool dry area away from ignition sources. Loosen closures cautiously. Avoid storage with combustible organic materials.

Storage temperature: Store in cool dry place

Storage pressure: Atmospheric

SECTION 8	EXPOSURE / PERSONAL PROTECTION
------------------	---------------------------------------

Exposure limits have not been established for this mixture. Limits for components are listed below:

COMPONENT #		OSHA PEL TWA	ACGIH TLV TWA	NIOSH TWA
1. Ethanol	64-17-5	1000 ppm 1900 mg/m ³		1000ppm 1900 mg/m ³
2. Isopropanol	67-63-0	400ppm 980 mg/m ³	200 ppm	400 ppm 980 mg/m ³
3. Glycerin	56-81-6	5 mg/m [#]	10 mg/m ³	10 mg/m ³
4. Propylene Glycol	7-55-6		10 mg/m [#]	

Product Name: Clean Hands

ENGINEERING CONTROLS

The level of protection and types of control will vary depending upon potential exposure conditions. If user operations generate fume or mist, use adequate ventilation to keep exposure below exposure limit.

PERSONAL PROTECTION

Ventilation and engineering controls: Use only in well ventilated area. If necessary, use exhaust ventilation to insure adequate ventilation. Insure that water is readily available and that you are prepared to properly wash out your eyes should the need arise. (Refer to section 4).

Respiratory: Wear NIOSH/MSHA approved respirator when ventilation is not adequate. If necessary, a NIOSH /MSHA –approved air purifying respirator with an organic vapor cartridge or canister may be advisable under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure, air supplied respirator if there is any potential for uncontrolled release, exposure levels are unknown, or any other circumstances where air-purifying respirators may not provide adequate protection.

Eye Protection: Wear safety goggles to protect against eye contact. See OSHA 29 CFR 1910.33

Skin: Wear chemical impervious gloves. Wear protective clothing to minimize skin contact. Wash skin after use. Wash contaminated clothing and dry before reuse.

Other: One should always use chemicals with an awareness of the potential hazard of the effect on the human system. To minimize employee exposure to all chemicals, including this product, use good industrial hygiene practices.

SECTION 9	PHYSICAL AND CHEMICAL PROPERTIES
------------------	---

Physical State and Appearance: Liquid

Odor: Light Clean Alcohol Scent

Boiling point: Not Available.

Melting point: Not Available.

Flammability: flammable

Viscosity: Not Available.

Flash point: 30C

Decomposition temperature: Not Available.

Color: Clear

pH: 7

Freezing point: Not Available.

Density: Not Available.

Particle size: Not Available.

Vapor density: Not Available.

Solubility: Soluble

Vapor pressure: Not Available

SECTION 10	STABILITY AND REACTIVITY
-------------------	---------------------------------

Chemical Stability: Stable under normal conditions.

Conditions to avoid: Keep away from heat or excessive pressure. Keep away from heat or ignition source.

Incompatibility with other materials: None known

Hazardous decomposition products: Decomposition products depend upon temperature, air supply and the presence of other materials. Decomposition products can include and are not limited to: Sulfur, carbon, and nitrogen oxides.

Hazardous polymerization: Major components of this mixture show no hazardous polymerization.

Conditions to Avoid: Oxygen, which supports combustion.

Product Name: Clean Hands

SECTION 11	TOXICOLOGICAL INFORMATION
-------------------	----------------------------------

Toxicological information has not been established on this mixture. Toxicological information on components within this mixture is given by:

COMPONENT #	TOXICITY
1. Ethanol	LD ₅₀ Oral – rabbit 15,800 mg/kg
2. Isopropyl Alcohol	LD ₅₀ Oral – Rabbit 12,870 mg/kg LC ₅₀ Inhalation – rat – 8 h- 18,000ppm
3. Glycerin	LD50 Oral – Rat 12,600 mg/kg Rabbit 27,000mg/kg
4. Propylene Glycol	LD50 Oral – Rabbit 18,500 mg/kg

SECTION 12	ECOLOGICAL INFORMATION
-------------------	-------------------------------

Ecological information has not been established for this product. Ecological information on components within this mixture is given by:

COMPONENT #	TOXICITY
1. Ethanol	LC50 – Fish: 96h 11,000 mg/l
2. Isopropyl Alcohol	LC ₅₀ – Pimephales promelas(fat head minnow) – 9,640 mg/l-96.h ED ₅₀ – Daphnia (other aquatic invertebrates) – 5,102 mg/l – 48 h
3. Glycerin	LD50 – Goldfish 5,000 mg/l 24 hr.
4. Propylene Glycol	LD50 – Goldfish 5,000 mg/l 24 hr.

SECTION 13	DISPOSAL CONSIDERATIONS
-------------------	--------------------------------

Dispose of all waste, empty bottles and contaminated equipment in accordance with all applicable federal, state and local health and environmental regulations.

Do not dump into storm drains or any body of water. All disposal methods must be in compliance with all federal, State/ Province and local laws and regulations. Regulations may vary in different locations.

Waste characterizations and compliance with applicable laws are the responsibility solely of the waste generator. The vendor has no control over the management practices or the processes by which the party who handles or uses this material. The information presented here pertains only to the product as shipped in its intended condition and recommended usage.

SECTION 14	TRANSPORT INFORMATION
-------------------	------------------------------

DOT (US)

UN number :1170

Description Ethanol solutions

Class: 3

Packing Group 111

Environmentally hazardous: No

SDS Product: Clean Hands

Packing Group 111

Environmentally hazardous: No

SECTION 15	REGULATORY INFORMATION
-------------------	-------------------------------

US Federal Regulations:

OSHA standards require that information be provided to employees regarding the hazards of chemicals by means of a hazard communication program including labeling, safety data sheet (SDS) sheets, training and access to written records. We request that you, as per your legal duty to, make all information in this SDS available to your employees and those who handle or consume the product. To aid our customers in complying with regulatory requirements regulatory information for components of this product are indicated below.

California compliance showing ingredients appearing on designated lists.

CA Non-Cancer Hazards

This *mixture* has *no established regulatory information* all regulatory information given is based on individual Components of the mixture by component number

SECTION 16	OTHER INFORMATION
-------------------	--------------------------

While the information is believed to be accurate, CTI makes no representations as to its accuracy or sufficiency. This SDS summarizes to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. All information appearing herein is based upon data obtained from the manufacturer and/or recognized technical sources of each individual component. Since CTI cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material. Users are responsible to verify this data under their own operating conditions to determine whether this product is suitable for their particular purposes and they assume all risks of their use, handling, and disposal of the product, or from the publication or use of, or reliance on information contained herein. This information relates only to the product-designated herein and does not relate to its use in combination with any other material or in any other process.
